### Utility Information for: **BCP# 0215514 (Hatch Mott MacDonald Sites)** Culvert Restorations

*Statement: The following information should only be used for informational purposes; utilities shall be checked by the contractor on site to verify current site conditions. The following information was compiled to the best of our knowledge but it is the responsibility of the contractor to determine actual conditions.*

#### Color Guide:

- Green sites have no known utility conflicts
- Yellow sites have not yet been determined
- Red sites have known utility conflicts

#### BC200-019 (CR 52) – Bald 3

- Town of Silverhill - Has a 6" water line they could not locate and they say it must be deep, they said it should not be in conflict.
- No sewer lines.
- Riviera Gas – Has a 2" main at the site but believe there is no conflict. They are 32" deep and 17' from the white line, north side of the road.
- County Fiber – I potholed on the north side of the road, 13' east of pipe, 17' from the white line on roadway, 5' deep no fiber found. I then potholed 53' west of pipe, 13' from white line on roadway, 4' deep and no fiber found. On 6-15-15 after locates were updated I potholed 4' deep and found a black cable (?) 21" deep, 11.5' west of drain pipe, 16.5' from white line (north side of road). It may or may not be County fiber, but I was told our fiber is in orange conduit. Therefore, County fiber must be deeper than 4'.
- Riviera Power – Says they need to shield their line and to let them know ahead of time so they can cut the power for a short time.
- Harbor Communications – They say they don't believe their fiber is at the site.
- CenturyLink - has a copper cable at this location but it is not known if it will be a conflict

#### BC200-059 (CR 54) – Bald 5

- City of Robertsdale – they say their water line should be clear.
- EMC- Says no conflict.
- Riviera Gas – They have a 4" main at the site but believe there is no conflict.
- County Fiber – I potholed 2' from white line (north of road) , 4' deep, 15' east of drain pipe. I moved 80' east of drain pipe, 2' from white line, 4' deep. I did not find any orange conduit. On 6-8-15, Gerard (our locator), says the machine he used indicated our fiber line was deep, which leads me to believe our fiber was bored. Our County locator, David, came to the site today (6-15-15) and his machine indicated the fiber is 6' above the drain pipe. Which means the fiber would be 4' above the drain pipe.
- Harbor Communication Fiber – Are running with the County fiber.
- Level 3 Fiber – Has a fiber at the site, they have not determined if it's conflict.
- CenturyLink – Has a cable at the site, they have not determined if it's conflict.
- Baldwin County Sewer – Has a sewer line on site, they have not determined if it's in conflict.

**BC300-002 (CR 99) – Bald 16**

- Perdido Bay Water – Bruce Hartman said they have a water line on the east side at this site, he does not think it will be in conflict.
- Riviera Utilities Power – Leon Barber said they can cover their line and have someone on site during construction. Leon also said this is a main 3 phase line and no one can work within 10' of it.
- BCSS – Ryne Engle said they have a sewer line on the west side of the road. Ryne said he don't think there is a conflict.
- CenturyLink – Has fiber on this site. The Location and if in conflict has not yet been determined.

**BC300-009 (CR 99) – Bald 17**

- Perdido Bay Water – Bruce Hartman said they have a water line on the east side at this site, he does not think it will be in conflict.
- Perdido Bay Water – Bruce Hartman said they have a water line on the east side at this site, he does not think it will be in conflict.
- Riviera Utilities Power – Leon Barber said they can cover their line and have someone on site during construction. Leon also said this is a main three phase line and no can work within 10' of it.
- Baldwin County Sewer – Ryne Engle said they have a sewer line on the west side of the road. Ryne said he don't think there is a conflict.
- CenturyLink – Has fiber on this site, conflict not determined.

**BC300-009 (CR 99) – Bald 17**

- Perdido Bay Water – Bruce Hartman said they have a water line on the east side at this site, he does not think it will be in conflict.
- Riviera Utilities Power – Leon Barber said they have a 3 phase line that switches from one side of the road to the other directly over the existing double run of 60" CMP. They can shut the power off while construction is going on. Leon said he will need to know several weeks in advance so they can prepare.
- Baldwin County Sewer – Ryne Engle said they have a sewer line on the west side of the road, conflict not determined.
- CenturyLink – Has fiber on this site, conflict not determined.

**BC300-004 (CR 99) – Bald 19**

- Perdido Bay Water – Bruce Hartman said they have a water line on the east side at this site, he does not think it will be in conflict.
- Riviera Utilities Power – Leon Barber said they can cover their line and have someone on site during construction. Leon also said this is a main three phase line and no one can work within 10' of it.
- Baldwin County Sewer – Ryne Engle said they have a sewer line on the west side of the road, conflict not determined.
- CenturyLink – Has fiber on site, conflict not determined.
