10. The UTILITY will, within six (6) months following completion of the relocation, furnish the COUNTY such papers, records, supporting documents and invoices as may be required by the State showing the cost of said relocation. The UTILITY will furnish the COUNTY a copy of its "as built" plans for the STATE'S records.

11. Paragraphs numbered 13 through 17 set forth below are applicable to this Agreement only if some or all of the UTILITY facilities to be relocated hereunder are located on private right-of-way of the UTILITY; otherwise, such paragraphs are considered inapplicable to this Agreement and null and void.

13. Where the UTILITY has a compensable property interest in its existing location (herein referred to as private right-of-way) by reason of holding the fee, an easement or other property interest, evidence of such compensable property interest will be submitted to the COUNTY by the UTILITY for review and approval.

14. If the UTILITY is required to move all of its facilities from a portion of its private right-of-way, upon completion of the relocation provided for herein, the UTILITY will convey to the COUNTY by Quitclaim Deed the portion of its private right-of-way located within the right-of-way limits of the above referenced project.

15. In the event the UTILITY is not required to relocate any of its facilities which are located on its private right-of-way, the following provisions shall apply:

- a. To the extent the UTILITY has the right to so agree the COUNTY will have the right to construct, operate and maintain a highway over and along the portion of the UTILITY'S private right-of-way located within the right-of-way limits of the above referenced project.
- b. The subordination of the UTILITY'S private right-of-way to the right of the COUNTY to construct, operate, and maintain said highway will be effective and operative only to such air, surface and sub-surface rights as may reasonably be required and are necessary for the construction, operation, and maintenance of said highway, and to enable the COUNTY to control access to the highway where such control is established; otherwise this subordination agreement will in no wise affect and impair the rights of the UTILITY, its successors and assigns, in or to its private right-of-way, including but not limited to the right to install additional facilities over, under and across the highway; provided, however, that any installation of additional facilities will be subject to the STATE'S responsibility and right to make prior determination that any such additional facilities are located so as not to impair the highway or any planned highway improvement and so as not to interfere with the free and safe flow of traffic thereon.
- c. It is mutually understood that the terms of this Agreement do not subordinate, affect or impair the rights of the UTILITY for reimbursement of the cost of such future relocation as may be required and necessitated by highway construction at some future date, as fully as if no subordination existed; however, such relocation will be in accordance with an additional agreement to be entered into at that time between the UTILITY and the COUNTY.

16. If the UTILITY is required to relocate any of its facilities which are located on its private right-of-way to a new location on the same private right-of-way, the following provisions shall apply:

- a. To the extent the UTILITY has the right to so agree, upon completion of the relocation provided for herein, the COUNTY will have the right to construct, operate and maintain a highway over and along the portion of the UTILITY'S private right-of-way located within the right-of-way limits of the above referenced project.
- b. The subordination of the UTILITY'S private right-of-way to the right of the COUNTY to construct, operate and maintain said highway will be effective and operative only to such air, surface and sub-surface rights as may reasonably be required and are necessary for the construction, operation and maintenance of said highway, and to enable the COUNTY to control access to the highway where such control is established; otherwise this subordination agreement will in no wise affect and impair the rights of the UTILITY, its successors and assigns, in or to its private right-of-way, including but not limited to the right to install additional facilities over, under and across the highway; provided, however, that any

installation of additional facilities will be subject to the COUNTY'S responsibility and right to make prior determination that any such additional facilities are located so as not to impair the highway or any planned highway improvement and so as not to interfere with the free and safe flow of traffic thereon.

- c. It is mutually understood that the terms of this Agreement do not subordinate, affect or impair the rights of the UTILITY for reimbursement of the cost of such future relocation as may be required and necessitated by highway construction at some future date, as fully as if no subordination existed; however, such relocation will be in accordance with an additional agreement to be entered into at that time between the UTILITY and the COUNTY.

17. If the UTILITY is required to relocate any of its facilities which are located on its private right-of-way to a new location on public right-of-way or if any such facilities are to be retained in place within the public right-of-way due to this project, the following provisions will apply

- a. The cost of relocation will include reimbursement for acquisition of right-of-way by the UTILITY to place necessary guy wires and anchors on private lands adjacent to the highway right-of-way and the rights to cut, trim and remove, initially and from time to time as necessary, trees on private lands adjacent to the highway right-of-way which might then or thereafter endanger the facilities of the UTILITY.
- b. Reimbursement for future relocation of the UTILITY'S facilities will be in accordance with State laws in effect at the time such relocation is made; provided, however, the UTILITY will be reimbursed for the cost of any future relocation of the facilities, including the cost of acquisition of equivalent private right-of-way if such future relocation is outside the highway right-of-way and such relocation is required by the COUNTY, and provided that the prior relocation from private right-of-way to public right-of-way was without compensation to the UTILITY for its compensable property interest in its private right-of-way.

18. The UTILITY will be obligated for the payment of damages occasioned to private property, public utilities or the general public, caused by the legal liability (in accordance with Alabama and/or Federal law) of the UTILITY, its agents, servants, employees or facilities.

19. The UTILITY will have a copy of this Agreement on the project site at all times while work is being performed under this Agreement.

20. Nothing contained in this Agreement, or in its execution, shall be construed to alter or affect the title of the COUNTY to the public right-of-way nor to increase, decrease or modify in any way the rights of the UTILITY provided by law with respect to the construction, operation or maintenance of its facilities on the public right-of-way.

21. Paragraph 22 set forth below is applicable to this Agreement only if Federal appropriated funds are available or will be available in the project by which the relocation required by this Agreement is necessitated.

22. In the event any Federal Funds are utilized for this work, the following certification is made:
