INDICTMENT

THE STATE OF ALABAMA }
Baldwin County.

Circuit Court, Fall Session, 1952

The Grand Jury of said County charge that before the finding of this indictment SAM L. JACKSON, whose name is to the Grand Jury otherwise unknown, unlawfully and with malice aforethought killed Calvin Edwards, alias Pop Edwards, by stabbing him with a screwdriver, but without premeditation or deliberation, against the peace and dignity of the State of Alabama.

2. The Grand Jury of said County further charge that before the finding of this indictment SAM L. JACKSON, whose name is to the Grand Jury otherwise unknown, unlawfully and with malice aforethought killed Calvin Edwards, alias Pop Edwards, by cutting him with a screwdriver, but without premeditation or deliberation

against the peace and dignity of the State of Alabama.

WILLIAM R. LAUTEN
Solicitor of the Twenty-Eighth Judicial Circuit.

No. **RECORDED**

THE STATE OF ALABAMA,
BALDWIN COUNTY

Foreman*

AFFIDAVIT

State Of Alabama, }
 Baldwin County. }

In the Justice Court of T. C. H A N D

Before me, T. C. H A N D, Justice of the Peace

in and for said County, personally appeared _____ Taylor Wilkins _____ who, being
 duly sworn, deposes and says on oath that he has probable cause for believing and does believe that in said County,

on or about 5 October, 1952 that one SAM L. JACKSON
 unlawfully, and with malice aforethought, killed Calvin Edwards by stabbing
 him with a screw driver.

against the peace and dignity of the State of Alabama

Sworn to and subscribed before me this 6
 day of October, A. D., 1952

T. C. Hand
 _____, J. P.

Taylor Wilkins

WARRANT

State Of Alabama, }
 Baldwin County. }

To Any Lawful Officer of Said County, Greetings:

You are hereby commanded to arrest Sam L. Jackson _____ and bring him

before me _____ to answer the State of Alabama on a charge

Murder

and have you then and there this writ with your return thereon

Witness my hand this 6 day of October, 1952.

*Defendant appeared before me and after talking to him about case he requested that hearing be waived to Grand Jury.
Def. was ordered held without bond to await action of Grand Jury.*

*J. S. Lacy
Justice of Peace*

1527

The first part of the paper is devoted to a general discussion of the problem. It is shown that the problem is well-posed in the sense of Hadamard. The second part is devoted to the construction of the solution. The third part is devoted to the study of the properties of the solution. The fourth part is devoted to the study of the stability of the solution. The fifth part is devoted to the study of the convergence of the series. The sixth part is devoted to the study of the asymptotic behavior of the solution. The seventh part is devoted to the study of the singularities of the solution. The eighth part is devoted to the study of the analytic continuation of the solution. The ninth part is devoted to the study of the integral representation of the solution. The tenth part is devoted to the study of the differential equations satisfied by the solution. The eleventh part is devoted to the study of the boundary value problems for the solution. The twelfth part is devoted to the study of the initial value problems for the solution. The thirteenth part is devoted to the study of the Cauchy problem for the solution. The fourteenth part is devoted to the study of the Dirichlet problem for the solution. The fifteenth part is devoted to the study of the Neumann problem for the solution. The sixteenth part is devoted to the study of the mixed problem for the solution. The seventeenth part is devoted to the study of the problem of the determination of the solution from its values on a part of the boundary. The eighteenth part is devoted to the study of the problem of the determination of the solution from its values on a part of the boundary and its normal derivatives. The nineteenth part is devoted to the study of the problem of the determination of the solution from its values on a part of the boundary and its normal derivatives and its tangential derivatives. The twentieth part is devoted to the study of the problem of the determination of the solution from its values on a part of the boundary and its normal derivatives and its tangential derivatives and its mixed derivatives.
