Figure 1 consists of 12 scatter plots arranged in a 4x3 grid. Each plot shows the relationship between the number of children (x-axis) and the number of children in the household (y-axis). The x-axis ranges from 0 to 10, and the y-axis ranges from 0 to 10. The plots show a positive correlation between the two variables, with the density of points increasing as the number of children increases.
