a minor, by next friend,

Plaintiff,

VS.

DAVID K. McLEMORE,

Defendant.

IN THE CIRCUIT COURT OF  
BALDWIN COUNTY, ALABAMA  
AT LAW. NO. 1429

MOTION TO DISMISS CAUSE

Now comes the defendant, by his attorneys, and shows unto the Court that he heretofore filed a motion in this cause to require the plaintiff, who is a non-resident, to deposit or secure court costs in this cause and that on September 25, 1951 an order was made in open court requiring the said plaintiff to deposit or secure court costs in the amount of \$50.00 in this cause within fifteen (15) days from the date of the said order. The said fifteen-day period expired on October 10, 1951 and the said plaintiff has not deposited or secured the said costs in this cause.

WHEREFORE, the defendant moves the Court to dismiss this cause.

1. The first part of the paper discusses the importance of the study of the history of the English language. It is argued that the study of the history of the English language is not only a matter of academic interest but also a matter of practical importance. The study of the history of the English language can help us to understand the development of the English language and to see how it has changed over time. It can also help us to understand the relationship between the English language and other languages.

2. The second part of the paper discusses the importance of the study of the history of the English language. It is argued that the study of the history of the English language is not only a matter of academic interest but also a matter of practical importance. The study of the history of the English language can help us to understand the development of the English language and to see how it has changed over time. It can also help us to understand the relationship between the English language and other languages.

Figure 1 is a line graph showing the percentage of correct responses for the 100-item test across four groups: 100% correct, 90% correct, 80% correct, and 70% correct. The x-axis represents the number of items (0 to 100). The y-axis represents the percentage of correct responses (0 to 100). The 100% correct group shows a sharp increase in correct responses from 0 to 100 items. The 90% correct group shows a sharp increase from 0 to 10 items, then a gradual increase. The 80% correct group shows a sharp increase from 0 to 10 items, then a gradual increase. The 70% correct group shows a sharp increase from 0 to 10 items, then a gradual increase.
