COUNTY OF MOBILE

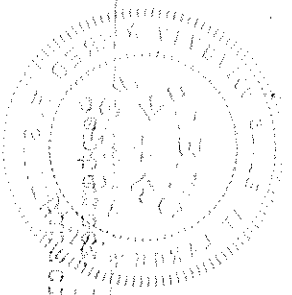

Before me, Fred F. Smith Jr., Notary Public, personally  
appeared ~~William V. Phillips~~<sup>llips</sup>, who being by me first duly sworn doth  
depose and say that he is the plaintiff in the above styled  
cause and that judgment has been rendered for him in the sum  
of \$268.50 together with interest since the 24th. day of April  
1951 and the costs of court which total sum is \_\_\_\_\_  
against W.M. McDill; that the affiant and plaintiff is in danger  
of losing the fruit of his judgment by delay because the defendant  
is selling and disposing of his property consisting of a crop  
of cotton located in Baldwin County, Alabama. Wherefore,  
affiant prays that execution on his judgment be issued against  
the said defendant immediately,

Case No. 1835

Dear Mrs. Duck:

Enclosed is motion for default judgment and non-military affidavit in a bove styled cause. If the Judge is in could a judgment be entered immediately? If necessary, Mr. J.B. Blackburn, would appear in my behalf to save me a trip to Bay Minette.

Also enclosed is affidavit for immediate execution to be issued. I am writing the sheriff a letter along with this one.

Enclosed is check for \$1.00 to cover certificate and recording of same if you would please do that for me.

Thank you very much.

Sincerely,

Fred F. Smith Jr.

**Abstract**

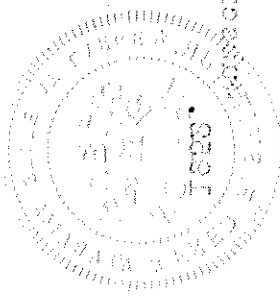

[illegible]

1. The first thing I noticed when I stepped out of the car was the cold, crisp air. It felt like a blanket, wrapping around me and filling my lungs. The sun was shining brightly, casting long shadows on the ground. I took a deep breath, savoring the fresh scent of the morning.

Figure 1. A schematic diagram of the experimental setup. The subject is seated in a chair, viewing a video screen. The screen displays a target (a small circle) and a starting point (a larger circle). The subject's hand is positioned at the starting point. The distance between the starting point and the target is labeled as  $d$ . The subject is instructed to move their hand from the starting point to the target. The video screen is connected to a computer system that records the hand's position and movement time.
