

R. H. BROWN, X IN THE CIRCUIT COURT OF
PLAINTIFF, X BALDWIN COUNTY, ALABAMA
vs. X
COCA-COLA BOTTLING COMPANY, X AT LAW CASE NO. _____
INC., a corporation, Mobile,
Alabama,
Defendant, X

Comes the defendant in the above styled cause and demurs to the complaint as last amended, on the following separate and several grounds:

1. Because said count fails to allege that the amount of liquid potassium soap, containing phenol and potassium ion, was sufficient quantity in the Coca-Cola to render the same deleterious and unfit for human consumption.
2. Because said complaint fails to allege that the content of the bottle of Coca-Cola complained of, was deleterious and unfit for human consumption.
3. Because the complaint does not show any cause or connection between the liquid potassium soap containing the phenol and potassium ion, alleged to be in the contents of said bottle, and the alleged injuries to the plaintiff.
4. Because said count fails to allege that the liquid potassium soap containing a phenol and potassium ion, rendered the contents of the bottle complained about deleterious and unfit for human consumption.

AT LAW CASE NO. _____

Defendant.

Comes the defendant in the above styled cause and demurs to the complaint exhibited against it on the following separate and several grounds:

1. Because the complaint states no cause of action.
2. Because the complaint states no cause of action against this defendant.
3. Because the complaint is too vague and indefinite in its averments to sufficiently apprise the defendant what cause of action is relied on.
4. Because the complaint does not allege a breach of any duty owing by the defendant to the plaintiff.
5. Because the complaint contains the mere conclusion of the pleader.
6. Because it does not appear from the complaint with sufficient certainty wherein the defendant violated any duty owed to the plaintiff.
7. Because from aught appearing, the negligence alleged was not the negligence of the defendant.
8. Because the complaint fails to aver that liquid potassium soap containing a phenol and potassium ion is deleterious to human health.
9. Because the complaint does not show any causal connection between the liquid potassium soap containing a phenol and potassium ion alleged to have been in said bottle and the alleged injuries to the plaintiff.
